# World Phone Service

Real phone calls and video to any number in the world. Live two-way translation is optional: you speak your language, they hear theirs.

## INTERFACE LANGUAGES

English · Español · Français · Deutsch · Português · Русский · Українська · 中文 · 日本語 · العربية · עברית · हिन्दी · + all 21 languages

### Works in any browser

No install. Phone or computer.

### Calls and video

Landline or mobile — they need nothing. Video in the app.

### Optional live translation

Turn it on when you need it. Real time, both ways.

THE PRODUCT

# A phone you can use in any language

Brickline Web World Phone Service is a web app for real international phone calls and video. Open it in any browser, enter a number, and tap Call. Live two-way translation is optional: turn it on when you need it, speak your language, and the other person hears theirs.

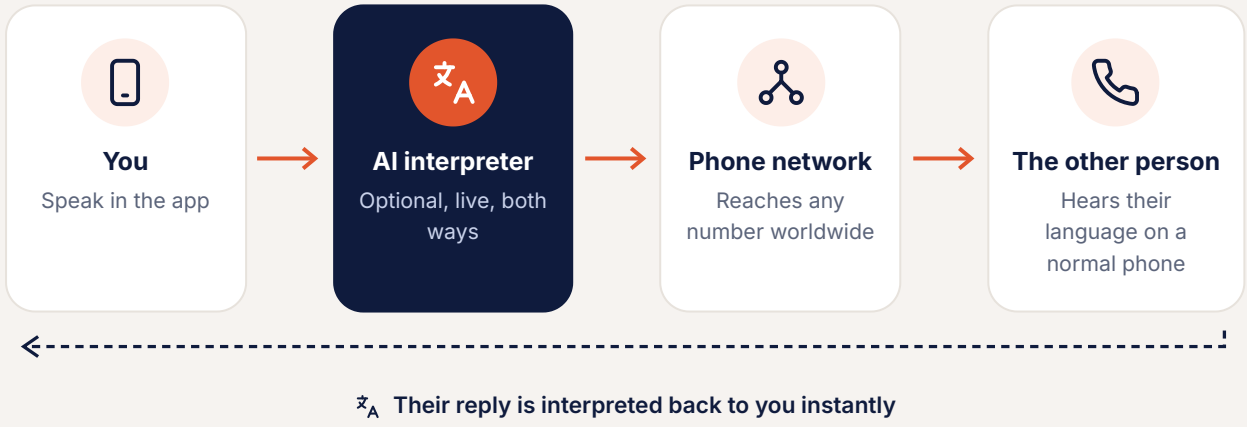

**Open in any browser**
On any phone, tablet or computer. Nothing to download.

**Install as an app icon**
Add it to your home screen in one tap.

**Real phone network**
Calls go to ordinary landlines and mobiles. The other person needs no app and no internet.

**Optional AI assistant**
Let the AI assistant speak on your behalf, or turn on live translation only when you want it.

## How a translated call works

## Four steps

**1**
**Open the app**
In any browser, on any device.

**2**
**Enter the number**
Any landline or mobile.

**3**
**Tap Call**
See the price before you call.

**4**
**Talk — translate if you want**
Live interpretation is an optional toggle.

FEATURES

# Everything you need, nothing you don't

### Clear, complete menu

Call, Recent, Languages, Balance and Top-up, Settings, Accessibility, Help and Legal: all one tap away.

### Speaks your language

The interface opens in your language automatically — all 21 Brickline languages, including English, Spanish, Portuguese, French, German, Italian, Russian, Ukrainian, Polish, Chinese, Japanese, Korean, Arabic, Hebrew, Hindi, Turkish, Vietnamese, Indonesian, Haitian Creole and Filipino.

### Exact live usage meter

During a call you see the time, amount spent, remaining balance and minutes left. A full history of calls and top-ups is always available.

### One-tap top-up

Top up with Apple Pay, Google Pay or a bank card. Optional auto-refill with a spending cap you set.

### Fast, secure sign-in

Sign in with Face ID, a fingerprint, or an email code. No password required.

### Local caller ID

In many countries the person you call sees a local number and can call you back. Rolling out country by country.

### Private by design

Calls are not recorded and no transcripts are stored.

### Clear and lawful

When translation is on, the other party hears a short notice that an AI interpreter is on the call and is asked for consent.

### Accessible to everyone

Built to WCAG 2.1 AA, with an accessibility menu, screen reader and keyboard support.

### Honest pricing

The app is free. Packs and storage are published in the app. The exact call price is shown before you dial.

VALUE ON THE WORLD MARKET

# Live interpretation on phone calls usually costs a lot. It doesn't have to.

Until now, interpreted phone calls meant paying a human interpreter by the minute, or using an AI app with high per-minute rates, or owning a specific brand of phone. World Phone Service is designed to be among the most affordable phone calls with optional live interpretation, from any phone or browser, to any number.

| Solution | Type | Publicly listed rate* |
|---|---|---|
| **Human phone interpreters (e.g. LanguageLine)** | Human interpreter service | about $3.95 / min |
| **Wordly** | AI interpretation for meetings and events | about $1.25–2.50 / min |
| **MayaHelp** | AI call translation | about $1.49 / min |
| **Call2Me** | AI call translation app | about $0.25–0.33 / min |
| **TalkTool** | AI call translation app | about $0.30 / min |
| **Built-in translators (Samsung, Pixel, Apple)** | On-device feature | Only on their own supported devices |
| **Brickline Web World Phone Service** | Real calls, video + optional live AI translation | **From 4.9¢ / min to the US and Canada** |

* Publicly listed rates, Nov 2026, may change. Shown for general comparison only; names and trademarks belong to their owners. Brickline prices are shown in the app before each call.

## Why clients choose us

### Among the most affordable

The app is free. In-network calls are free. Calling packs start at $4.99. Calls to the US and Canada are 4.9¢ / min.

### Any phone, any browser

No specific device or brand required. Works on iPhone, Android, Windows, Mac and more.

### All major languages

Optional two-way interpretation between the languages you and your contacts actually speak.

### Real network, any number

Landlines, mobiles and video. The other person needs nothing for a regular call.

### Local numbers

Local caller ID in many countries, so people recognise and return your call.

### Accessible to everyone

WCAG 2.1 AA design for seniors and people with hearing or speech needs.

WHO IT'S FOR

# Made for real conversations

### Families abroad

Talk with relatives who speak another language, including grandparents on a home landline.

### Immigrants and newcomers

Call doctors, banks, landlords and government offices with confidence.

### Travelers

Book a hotel, a taxi or a table, or sort out a problem in a country whose language you don't speak.

### Small businesses

Call suppliers, partners and customers worldwide without hiring an interpreter.

### Seniors

Large text, high contrast and a simple flow: one number, one button.

### Hearing and speech needs

Accessibility tools and the AI assistant help more people make phone calls on their own terms.

## Privacy, compliance and accessibility

### Privacy

Calls are not recorded. No transcripts are stored.

### Transparency

When translation is on, the other party hears an AI-interpreter disclosure and consent notice, in line with EU AI Act transparency.

### Regional compliance

Designed to follow privacy and accessibility laws by region, including GDPR and applicable US laws.

### Accessibility

WCAG 2.1 AA. Accessibility menu: text size, contrast, stop animations, readable font. Screen reader and keyboard support.

GETTING STARTED

# Start free, and call the world in your own language

Create a World Phone account in any browser. The app is free. Calls between World Phone users are free. Buy a calling pack when you need minutes, and turn on live translation only when you want it.

- Open phone.bricklineweb.com in any browser, or add it to your home screen.
- Sign in with an email code, Face ID or a fingerprint.
- Call or start a video chat. Turn on live translation when you need it.
- The price is always shown before you spend.

## Current prices

| | |
|---|---|
| The app | **Free** |
| Calls and messages between World Phone users | **Free** |
| Calling packs | **$4.99, $9.99 and $24.99** |
| Calls to the United States and Canada | **4.9¢ / min** |
| Storage | **500 MB free · 5 GB $0.99/mo · 50 GB $1.99/mo · 200 GB $5.99/mo** |

International rates to other countries are quoted in the app before you dial. Prices are in US dollars and may change; the rate shown in the app is the rate that applies.

LEGAL NOTICE

World Phone Service is provided by Brickline Web. Features, supported languages, local caller ID and prices vary by country and may change. The rate shown in the app before a call or when you start a plan is the rate that applies. Live translation is optional. AI interpretation is automated and may contain errors; it is not a substitute for a certified interpreter in medical, legal or other critical situations. The service is not for emergency calls; always dial your local emergency number directly. When an AI interpreter is used, the other party is informed and is asked for consent. Calls are not recorded and transcripts are not stored. Competitor figures are publicly listed rates as of November 2026, for general comparison only and may change; trademarks belong to their owners. This brochure is for information only and is not an offer or a contract.
